## Career Objective:

To establish a career in IT which offers challenges and growth opportunities, scope to learn and implementation of new ideas to enrich my knowledge and skill while contributing my best to the organization. Moreover, I try to come up with novel pragmatic ideas to enhance the existing.

## Professional Experience:

- Working with **TCS** as senior **PL/SQL** developer and **Cloud** Engineer in sales and Finance domain having 4+ years of experience.
- Working with DevOps COE team on POC's for containerization using **Docker**.
- **Docker** monitoring and troubleshooting using **CAdvisor**, **Prometheus** and **Grafana**.
- Trained many associates on **Microsoft Azure Fundamentals** in TCS.
- Infrastructure Migration from on premises to Microsoft Azure Cloud.
- Currently Microsoft Azure Fundamentals (**AZ-900**) Certified.
- Worked on complex data integration with various applications of Ultimatix using web services (i.e. real time), ETL tools leading to data extraction from internal and external sources and then consolidating into single cohesive dataset.
- Analytics and Insights on data visualization – Tool used **Qlik Sense**.
- Developed Application Reports for multiple applications. Tools used - **PostgreSQL**, **Informatica** (ETL).
- Worked on Sentimental Analysis using Python.

## Technical Skills:

**Technology and Tools:** PL/SQL, SQL, Git, SVN, Qlik Sense, Docker, Linux Fundamentals, Microsoft Azure, Agile (Scrum)

**Office Tools:** TCS Internal tools - Prime for Agile, Microsoft Office 365

**Programming Language:** PL/SQL, SQL, Python

## Professional Certification:

- Microsoft Azure Fundamentals (AZ-900)
- Cleared Microsoft Azure Hackathon Challenge

## Roles & Responsibility:

1. Hands on experience on Azure web application, App services, Azure storage, Azure SQL database, Azure Compute, Azure Networking, Azure AD, Azure Governance and Management Tools.
2. Containerization using Docker.
3. Involving in the full development cycle of planning, analysis, design, development, testing and implementation.
4. Expertise in RDBMS with thorough knowledge in writing SQL queries, Stored Procedures, Views, Functions, Packages, Testing exception handlers, Cursors and Tables and Object types.
5. Involved in the continuous enhancements and fixing of production issues.
6. Wrote SQL, PL/SQL programs required to retrieve data using cursors and exception handling.
7. Created indexes on tables to improve the performance by eliminating skip, index full scan, index fast full scan, table access full which identified in Trace Analyzer.
8. Coordinating with the front-end team to provide them with the necessary stored procedures and packages and the necessary insights into the data.

9. Expertise in software development processes including code management and Agile development.
10. Involved in achieving advanced Agile maturity for the project.
11. Mentoring junior developers on best practices and showing them how to work with predefined patterns.
12. Prepares time estimates and justifications for assigned tasks and provides recommendations to project managers.
13. Work with high standard following Agile development practices.
14. Worked on complex data integration with various applications of Ultimatix.
15. Worked on Sentimental Analysis using Python with TCS Data-Office.

### **Education**

**Bachelor's Degree –Electronics and Instrumentation Engineering 2012-2016**

Medicaps Institute of Technology and Management, Indore Madhya Pradesh.

### **Declaration:**

I Ankit Panchal, hereby declare that the above-mentioned information is true to best of my knowledge.
